

WILL REPRESENT THE INTERESTS OF THIS COUNTY

DICK DAVIS WILL MAKE AN
IDEAL LONG TERM COUNTY
COMMISSIONER

In speaking of the different county candidates on the republican ticket, it would be well to remember R. B. "Dick" Davis, who is out for long term county commissioner. Mr. Davis was one of the first to emigrate to Tonopah and ever since has been prominently identified with the welfare and advancement of this camp. He is a business man and a member of the firm of Lothrop-Davis company.

Several years ago Mr. Davis was a member of the fire commissioners, when that body existed, and the manner in which he looked after his duties was highly commendable. Honesty is his chief trait and he has a mind of his own when it comes to expending county funds. As a watch dog on the county treasury, no better selection than Dick Davis could be made, for he will have to be shown about each and every allowance. He is also an advocate of good roads and can be depended upon to do his utmost to repair the different thoroughfares in this county. A vote for Davis means a vote for protection, for the interests of the county will be looked after if he is elected.

RECORD TUNNEL WORK AT SEVEN TROUGHS

Word just received from the Seven Troughs Monarch Mines company at Farrell, Humboldt county, Nevada, is that the tunnel which is being driven into the hill to intersect at depth the rich shoot of ore prospected in the upper workings has been extended fifty feet since the first of the month. The indications are such that some good word from there is expected any day now. Considering the small force employed and the character of the rock, the record made by the Monarch people in putting in this great tunnel has few, if any equals in the history of tunneling in the state of Nevada.

The force consists of four men. The formation is a contact between granite and andesite, with resultant alterations. Since April 1, about six and a half months, these four men have driven the tunnel 700 feet, or an average of over 100 feet a month. This includes timbering. The cost has been between \$6 and \$6.50 a foot. This cost includes timbering, powder and all materials required. In addition to the foregoing record work, the men have built a road a mile and a half long, and wagons may now drive right up to the mouth of the tunnel.—Salt Lake Republican.

AT ST. PATRICK'S CHURCH
The mission at St. Patrick's church, conducted since last Sunday by the Paulist father, the Rev. Father McMullen, will be continued this evening at 7:30. These services have been a great success and are being largely attended by both Catholics and non-Catholics.

This evening's services will be as follows:

Rosary
Tenor Solo, "Then Shall the Righteous"Elijah-Mendelssohn . .
SermonRev. Father McMullen
Benediction
Music, "O Salubaris," Wibe, Choir
Fautuuo Ergo, FilsChoir

REHEARSAL FOR MUSICAL FESTIVAL

St. Mark's choir and all singers willing to assist next Sunday night are requested to meet tonight at 7:30 in St. Mark's.

PYTHIANS TO GIVE ANNUAL BALL ON THANKSGIVING

COMMITTEE HAS BEEN AP-
POINTED TO MAKE ALL
ARRANGEMENTS

At the regular weekly meeting of Mizpah Lodge No. 25, Knights of Pythias, held last evening in the Pythian Castle over the postoffice, a committee was appointed to make arrangements for the giving of the annual ball, which will come off at the Miners' Exchange hall on Thanksgiving evening. The annual balls of the Pythians have always been occasions of note and hold the record for attendance and pleasant features. The coming event will be no exception to the rule for an experienced committee will be in charge. First-class music will be engaged and it is expected that several innovations, pleasing to the dancing public, will be introduced.

FINANCIAL OUTLOOK IS MUCH IMPROVED

C. G. Rothschild, one of the owners of the Rex mine in Gold Circle, Nevada, arrived in Salt Lake on Thursday, direct from New York, and became a guest of the Cullen. Mr. Rothschild spent the last three months in New York, the city of his nativity, during which time he studied closely the financial situation, and said that money is plentiful and that capitalists are eager to enter upon western enterprises and are not nearly so much afraid of the mining field as they were a year ago. Good mining stock is being eagerly sought for and there is plenty of capital ready to invest in meritorious mining property, he says.

"The future of mining, in my judgment, is brighter today than at any time since the crash of 1907," said Mr. Rothschild. "I leave for Gold Circle Saturday. I understand the mill on the Rex property has been put in such shape as to save practically all the values, and we shall keep the mine and mill running continually from now on."—Salt Lake Tribune.

OLD-TIME PROSPECTOR PATIENT AT HOSPITAL

William Dix, who is a nephew of the late General John A. Dix and a second cousin of John S. Dix, the present democratic candidate for Governor of New York, and also a cousin of Rev. Morgan Dix of Trinity church, New York City, is a patient at St. Mark's hospital in Salt Lake.

Mr. Dix is an old-time prospector in Nevada and Utah. For fifteen years he was outside foreman at the Ontario mine at Park City. Of later years he has been a resident of Park valley in Box Elder county, where he has large property interests.

He came to Salt Lake on a visit to his old friend, Major Edmund Wilkes, and while at the home of the major was stricken down, necessitating his removal to the hospital. His condition is not serious and his early recovery is expected.

OREGON SHORT LINE WILL COMPLETE CUT-OFF

Frederick Graham, Nevada representative of the Scientific American, is spending a few days in Ely on business. Mr. Graham is largely interested at the camp of Contact and states that through the completion of the Oregon Short Line's cut-off next year, Contact will be given railroad communication, the lack of which has always kept the camp back.

Forty-two miles of the road has already been completed out of Twin Falls and, according to Mr. Graham, contracts have recently been signed with the Utah Construction company for the extension of the line to connect with the Southern Pacific.

It was reported when the road was first started a year or more ago that the intention was to connect with the Southern Pacific at a point about four miles west of Coburn. Should the line be built in 1911, as many people think it will, it will open a short route from the northwest to California and will put eastern Nevada in direct rail communication with the great grain and fruit raising sections of Idaho.—Ely Record.

Dr. and Mrs. Walter Techow came over from Goldfield last evening and will leave shortly for Manhattan.

PACKED HOUSE GREET SPEAKERS AT GOLDFIELD

REPUBLICAN CANDIDATES HELD
ENTHUSIASTIC MEETING
LAST NIGHT

Republicans in ordinary, republicans extraordinary and republicans supreme crowded the spacious Hippodrome last evening to hear the addresses at the second, great republican rally at which the second division of the republican state candidates were speakers, says the Goldfield Tribune.

Euthusiasm was rampant. Everywhere was the whole-souled spontaneous recognition of truths equitably presented. Everywhere the loyalty and wholesome appreciation of principle of well-meaning, honest effort for the upbuilding of Nevada and the improvement of the condition of her citizens.

District Attorney Augustus Tilden officiated as chairman of the meeting. The speakers, all of whom received a reception little short of an ovation, were: Hon. H. V. Morehouse, George Springmeyer, William Easton, William McMillan, W. C. Douglas, Jake Eggers and C. E. Watson.

Probably the most satisfying feature of the entire occasion came from the fact that not one word of mud-slinging, not a syllable derogatory to the opposition candidates was spoken. Credit was given to the many qualities and commendable records of such of the opposition as were spoken of, and when the monster audience left the building not one article of rancor had been apparent. The contrast with the recent democratic rally when republican candidates were made the subject of unwarranted and untruthful attacks, was apparent to all, and it is safe to say that many votes were changed from democratic to republican by last night's meeting.

The principal speech was delivered by Hon. H. V. Morehouse, one of the most fluent speakers and most logical presenters of campaign issues in the state. Humor and pathos were blended artistically with stern, convincing facts. His audience followed his every word, applauded when a telling point was made, remained silent as the speaker described the widowhood of a young mother through faulty mine timbering, laughed at his witty sallies and left the building convinced that republicanism and its attendant benefits would be good enough for them.

COAL OIL HABIT IS CAUSE OF A DIVORCE

Instead of "pouring oil on the troubled waters" of the matrimonial sea upon which they had embarked, Fred O. Hutchinson insisted on pouring kerosene into the stove to start the fires in the mornings, and so it happened that the quarrels which started over this incident led to a divorce which was granted to Myrtle Hutchinson by District Judge J. A. Howell in Ogden the other day.

PRECINCTS ARE REPORTING NUMBER OF FALL VOTERS

FOURTEEN PRECINCTS GIVE A
TOTAL REGISTRATION
OF 1749

With but fourteen precincts in this county reported, the total registration so far has reached the 1749 mark. As there will be twenty-seven precincts this year, the total should be increased to about 2000 when all the reports are sent to the county clerk's office. The precincts reported so far are as follows:

Tonopah (four precincts), 1444; Beatty, 54; Johnnie, 35; Bonnie Clare, 12; Silver Bow, 10; Smoky Valley, 28; Pioneer, 50; Golden Arrow, 22; Rhyolite, 215; Manhattan, 309; Berlin, 70.

It is expected that the remaining reports will be received before the expiration of the present week.

MARRIAGE LICENSE

A marriage license was issued at the county clerk's office today to Benjamin Franklin Roberts and Josephine Ida Rogantini, both of Duckwater.
